# **Class E Shares - Institutional Gross**

# Fund fact sheet date: 30 April 2020

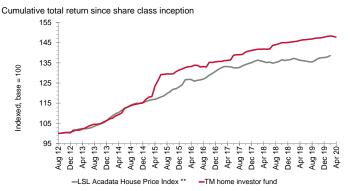

TM home investor fund is the UK's first Financial Conduct Authority regulated residential Property Authorised Investment Fund (PAIF)

This factsheet is for information only. It is not designed to provide advice on the suitability of an investment for your personal financial situation. If you have any questions regarding the information included in this factsheet, you are recommended to speak to a financial adviser.

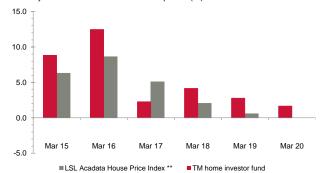

#### Investment Objective

The Fund invests in private rented sector housing across the mainland UK regions and aims to capture UK house price growth plus provide an element of income return. The property investment manager, Hearthstone Asset Management Limited, uses quantitative asset allocation methods and qualitative regional stock selection to build a portfolio of assets reflecting the distribution of UK mainland housing stock. Properties are let under assured shorthold tenancies (AST's) and corporate lets. Investment returns comprise capital growth and rental income. The LSL Acadata House Price Index is used for the purpose of performance comparisons. < Please see below regarding the current suspension of that index >

\*On 09-04-2015, the fund switched to a swinging single pricing basis with the prevailing single price used for performance calculation. Prior to that date, the fund was dual priced, with performance calculated on a bid-to-bid basis.

Important: You may get back less than the amount invested. Past performance is not necessarily a guide to future performance and future returns are not guaranteed. LSL Acadata has stated it will not publish its House Price Index for March, April or May owing to low numbers of property transactions.

### Property Investment Manager's commentary

Lockdown measures continue to impact the number of housing transactions in the UK and dealing in the Fund remains temporarily suspended, effective 10:30pm on 17th March, whilst its Standing Independent Valuer, CBRE, expresses material valuation uncertainty. CBRE continues valuing the 203 properties in the fund in line with proper market practices, adopting a comparable method of valuation - although given the low transaction volumes there is a dearth of evidence on which to rely, and there currently seems to be more reliance on agent sentiment and asking prices than one would expect within a 'normal' market. However, we have been advised by our valuers and letting agent that enquiries to local agents increased markedly in the last week of April, which we assume is people envisaging an imminent end to Lockdown, and implies that the underlying sentiment I talked about in February remains.

The April property valuation was down 0.38% from March, driven mainly by seven properties in King Georges Park, Rowhedge. No assets were sold in April, although the one unit under offer is still expected to complete the sale in May. Occupancy at the end of April was c. 89%, but this includes the eleven vacant units in the recently acquired Crocketts Lane development which we simply did not have sufficient time to let prior to the enforced Lockdown. As such, excluding these and another unit which is for sale, the occupancy of the fund stands at c. 94.5%. Latest ONS rental index data for March shows UK rents increased year on year by 1.4%. The Fund's rents increased by 1.7% over the same period, and inflation (CPIH) was 1.5%

Positively, the Fund collected 95.7% of rent demanded in April, which is above the 93% we understand to be sector average currently. We continue to work hard to support tenants now relying on their homes more than ever, particularly those where Covid-19 has caused financial difficulties. We aim to balance both tenants' and investors' needs, wherever possible setting up payment plans to ease temporary difficulties. Encouragingly, most tenants want to pay their rent in full and once their government financial aid has been paid quickly settle their arrears
