

Class E Shares - Institutional Gross

Fund fact sheet date: 31 August 2020

TM home investor fund is the UK's first Financial Conduct Authority regulated residential Property Authorised Investment Fund (PAIF)

This factsheet is for information only. It is not designed to provide advice on the suitability of an investment for your personal financial situation. If you have any questions regarding the information included in this factsheet, you are recommended to speak to a financial adviser.

Investment Objective

The Fund invests in private rented sector housing across the mainland UK regions and aims to capture UK house price growth plus provide an element of income return. The property investment manager, Hearthstone Asset Management Limited, uses quantitative asset allocation methods and qualitative regional stock selection to build a portfolio of assets reflecting the distribution of UK mainland housing stock. Properties are let under assured shorthold tenancies (AST's) and corporate lets. Investment returns comprise capital growth and rental income. The LSL Acadata House Price Index is used for the purpose of performance comparisons.

Performance of Class E Shares - Institutional Gross Accumulation Class, launched 13/08/2012. Prevailing single price*, net of charges, in GBP with income reinvested gross (no deduction of income tax). Performance of other classes may vary. Source of all data: Financial Express 31/08/2020 and LSL Acadata 31/07/2020 unless stated otherwise.

*On 09-04-2015, the fund switched to a swinging single pricing basis with the prevailing single price used for performance calculation. Prior to that date, the fund was dual priced, with performance calculated on a bid-to-bid basis.

Important: You may get back less than the amount invested. Past performance is not necessarily a guide to future performance and future returns are not guaranteed.

Property Investment Manager's commentary

The outlook for UK house prices has significantly improved over the past months. With the rebound in activity since May being remarkably sustained, the market received a further boost with the Stamp Duty holiday announced in July. The impact on the market has been immediate, and this has been reflected in the Fund's property portfolio which increased in value again in August, following increases in June and July. Month-end valuations for August were up 0.06%, giving a cumulative increase of 0.34% over the last 3 months (due to the Bank Holiday, the August increase was priced into the fund on 1st September). The properties which increased in value this time are at Mansion House in Colchester on average by 1%, due to a recently agreed sale within this scheme, and in Cleobury Mortimer, Shropshire, which increased by c.4%. The Fund's Standing Independent Valuer, CBRE, is continuing to scrutinise the strength of market activity, and has expressed optimism regarding the momentum of house prices in many of the regions in which the Fund is invested.

As mentioned over the past few months, the Fund's performance has highlighted the resilience of the Residential sector versus Commercial - not least in terms of the strength of rent collection. August has seen this continue, with the Fund collecting 98.5% of rent demanded - broadly in line with our long-term average of 99%. This high rent collection is driven not only by the quality of the Fund's tenants, but also the processes we put in place early in the Pandemic in so far that although some tenants did fall into financial difficulties, they have been able to obtain Universal Credit and maintain payment of their rent, demonstrating that residential rental income is very crisis-proof.

Although the month-end snapshot shows 17 vacant units for August, tenancies are already agreed or reserved on 10 of these, so we fully expect this to improve significantly in September and beyond, and for occupancy to be back up at pre-Covid levels in the region of 97% very soon.
