### Property Investment Manager's commentary

The Fund enjoyed another month of increased property valuations, strong rent collection and reducing void rates.

The property portfolio valuation increased by £211,000 (0.41%) month-on-month as the Standing Independent Valuer (SIV), CBRE, revised 38 homes upwards. This takes the annual increase in property portfolio values to 2.03%. CBRE continues to monitor several other comparable transactions which may lead to revised valuations on further properties held by the Fund over the coming months. Transaction times have become stretched because of the current levels of activity in the market, but buyers will be striving to beat the approaching SDLT Holiday deadlines of 30th June and 30th September, and we expect more comparable data will therefore become available to the SIV over the coming weeks.

The rental market is also enjoying high levels of activity. At the end of the month just eight of the Fund's properties were vacant - one of which is being marketed for sale, and two where tenants vacated in late-May. As vacant properties are being re-let, we are seeing rents increase on average by 1.6% year-on-year which is 0.4% above the annual rent inflation reported by the Office for National Statistics. Whilst rent reviews for existing tenancies were suspended at the beginning of the Covid pandemic, we have now started to reintroduce them across the portfolio - although remaining sensitive to each tenant's financial circumstances. Rent collection was 99% of that demanded for the month.

\* The Standing Independent Valuer has attached a valuation uncertainty clause to the Spectrum flats pending a satisfactory EWS1 (external wall safety) assessment. The building's Management Committee has registered with the Building Safety Fund and is currently working to assess the remediation works required.
