

Class D Shares - Retail Net (Unbundled) - 30 April 2022

TM home investor fund is the UK's first Financial Conduct Authority regulated residential Property Authorised Investment Fund (PAIF).

This factsheet is for information only. It is not designed to provide advice on the suitability of an investment for your personal financial situation. Investors should read the Key Investor Information Document or Prospectus which are available on www.homeinvestor.fund or by contacting info@hearthstone.co.uk.

Investment Objective Summary

The Fund invests in private rented sector housing across mainland UK regions and aims to capture UK house price growth and provide an element of income return. The property investment manager, Hearthstone Asset Management Limited, uses quantitative asset allocation and qualitative regional stock selection to build a portfolio of assets reflecting the distribution of UK mainland housing stock which are let under assured shorthold tenancies (AST's) and corporate lets. Investment returns comprise capital growth and rental income. The e.surv Acadata House Price Index is used for performance comparisons only. It is not a target benchmark and the fund is not constrained by it. This index has been chosen as a comparator benchmark as it is based upon actual sales completed and is mix-adjusted.

Please see the Key Investor Information Document or Prospectus for the full Investment Objective and Policy wording, and on the choice of performance comparator.

Performance of Class D Shares - Retail Net (Unbundled) Accumulation Class, launched 07/01/2013. Prevailing single price*, net of charges, in GBP with income reinvested net of basic rate income tax. Performance of other classes may vary. Source of all data: Financial Express 30/04/2022 and e.surv 30/04/2022 unless stated otherwise.

*On 09-04-2015, the fund switched to a swinging single pricing basis with the prevailing single price used for performance calculation. Prior to that date, the fund was dual priced, with performance calculated on a bid-to-bid basis.

Important: You may get back less than the amount invested. Past performance is not necessarily a guide to future performance and future returns are not guaranteed. Tax treatment depends on the individual circumstances of each investor and may be subject to change in future.

Property Investment Manager's commentary

The Fund's property portfolio was valued upwards for the 13th consecutive month in April, by the Standing Independent Valuer, CBRE - this month by £240,000 (0.42%). The 40 properties valued upward this month were spread across various locations including Nottingham, Birmingham, Milton Keynes, Bolton, Sittingbourne and Bristol. These increased valuations, as always, were based on evidence of transactions on comparable local properties. House price indices derived from Land Registry data such as e.surv Acadata continue to show a high degree of volatility so we are again reading the recent months' index with a high degree of caution as a result.

Following exchange of contracts in February on six 3-bed semi-detached and one 4-bed detached houses in Calne (15 miles South West of Swindon and 30 miles East of Bristol), completion of the remaining 5 units took place in April. Purchased at a discount to market value, these provided an uplift of £118,500 to the Fund net of purchase costs.

13 properties were vacant at the end of April (which included the 3 new properties at Calne) but high demand for quality rental property means that of these 13, 8 are under offer and we expect the vacancy rate to fall quickly and provide further rental growth. Average rental growth over 12 months stands at 2.8% (versus ONS Rental Index at 2.5%) but we expect this to increase further over the coming months if recent trends continue.

* The Standing Independent Valuer (SIV) attached a material valuation uncertainty clause to the Spectrum flats in Manchester in April 2021 following a failed EWS1 (external wall safety) assessment. These assessments were introduced by the government to improve fire safety of high-rise buildings including external cladding. As the potential cost of any remedial works, its funding and timing remain unclear, the clause remains in place. Government guidance is also under review, and it is not known how remedial works may impact the value of the flats or require funding from leaseholders. Consequently, the SIV has not changed its valuation from March 2021 but states less certainty and a higher degree of caution should be attached to its valuation of these units, and that it may take longer than the usual 3-6 month marketing period should a decision be made to sell them individually. All residents are aware of the situation and additional fire safety measures have been implemented. The 17 flats held by the fund, of which 12 are in a building below 18m, are part of a larger development of 600 apartments.

Due to the fact that a Material Valuation Uncertainty clause has been attached to these properties, the audit of the 30th June 2021 financial statements is still in progress.
