Total NAV	228	£ 73,452,866	100.00%

* The Standing Independent Valuer (SIV) attached a material valuation uncertainty clause to the Spectrum flats in Manchester in April 2021 following a failed EWS1 (external wall safety) assessment. These assessments were introduced by the government to improve fire safety of high-rise buildings including external cladding. As the potential cost of any remedial works, its funding and timing remain unclear, the clause remains in place. Government guidance is also under review, and it is not known how remedial works may impact the value of the flats or require funding from leaseholders. Consequently, the SIV has not changed its valuation from March 2021 but states less certainty and a higher degree of caution should be attached to its valuation of these units, and that it may take longer than the usual 3-6 month marketing period should a decision be made to sell them individually. All residents are aware of the situation and additional fire safety measures have been implemented. The 17 flats held by the fund, of which 12 are in a building below 18m, are part of a larger development of 600 apartments.

Important information

This financial promotion has been approved under Section 21 of the Financial Services and Markets Act 2000 by Thesis Asset Management Limited.

Residential property values are affected by factors such as interest rates, economic growth, fluctuations in property yields and tenant default.

Property investments are relatively illiquid compared to bonds and equities, and can take a significant amount of time to trade.
