

Class F Shares - Institutional Net - 30 June 2023

TM home investor fund is the UK's first Financial Conduct Authority regulated residential Property Authorised Investment Fund (PAIF).

This factsheet is for information only. It is not designed to provide advice on the suitability of an investment for your personal financial situation. Investors should read the Key Investor Information Document or Prospectus which are available on www.homeinvestor.fund or by contacting info@hearthstone.co.uk.

Investment Objective Summary

The Fund invests in private rented sector housing across mainland UK regions and aims to capture UK house price growth and provide an element of income return. The property investment manager, Hearthstone Asset Management Limited, uses quantitative asset allocation and qualitative regional stock selection to build a portfolio of assets reflecting the distribution of UK mainland housing stock which are let under assured shorthold tenancies (AST's) and corporate lets. Investment returns comprise capital growth and rental income. The e.surv Acadata House Price Index is used for performance comparisons only. It is not a target benchmark and the fund is not constrained by it. This index has been chosen as a comparator benchmark as it is based upon actual sales completed and is mix-adjusted.

Please see the Key Investor Information Document or Prospectus for the full Investment Objective and Policy wording, and on the choice of performance comparator.

Property Investment Manager's commentary

CBRE Limited, the fund's Standing Independent Valuer, left valuations unchanged across all but two of the fund's properties in June: one 2-bed flat in Greater London reduced by 2.3% and one 3-bed semi in Colchester by 1.4%, each based on transactions of comparable local properties. However, this small reduction in capital value was more than offset by net rental income collected during the month.

The e.surv Acadata House Price Index reported a month-on-month decline in the average transaction price of 0.26% and an annual increase of 1.2%. To 30th June 2023, net of charges and with income reinvested, total returns for TM home investor over 1 year ranged from 1.46% to 2.11% depending on share/unit class. However, the fund moved to bid pricing basis on July 3rd resulting in a swing in price of -2.5%. The fund is currently marketing vacant units to raise cash.

Rental growth remains strong at an average of 5.8% over the 12 months to the end of June, which is above the latest ONS rental index which shows 5.1%. Rent reviews of the fund's existing tenancies have been broadly in line with the ONS at an average 4.9% but vacated properties have been relet at 7.95% above previous rents. Our pragmatic approach to reviewing existing tenancies in the current economic climate has kept arrears low and rent collection has averaged 99.4% over the year.

* The Standing Independent Valuer (SIV) attached a material valuation uncertainty clause to the Spectrum flats in Manchester in April 2021 following a failed EWS1 (external wall safety) assessment. These assessments were introduced by the government to improve fire safety of high-rise buildings including external cladding. As of the end of February there was no clarity as to potential cost and timing of any remedial works, or whether this may require funding from leaseholders, the clause remains in place. Consequently, the SIV states less certainty and a higher degree of caution should be attached to its valuation of these units, and that it may take longer than the usual 3-6 month marketing period should a decision be made to sell them individually. However, the original developer of the flats has recently signed the Government's Buildings Safety Repairs pledge and stated its intent to work with the site's Residents Management Company to agree a schedule of remediation works. All residents are aware of the situation and additional fire safety measures have been implemented. The 17 flats held by the fund, of which 12 are in a building below 18 metres, are part of a larger development of c. 600 apartments. Since a Material Valuation Uncertainty clause has been attached to these properties, the 30th June 2022 financial statements were qualified.
