Total NAV (Note that shares are currently priced at Bid which is approximately 2.5% below NAV)	222	£ 64,123,039	100.00%

* The Standing Independent Valuer (SIV) attached a material valuation uncertainty clause to the Spectrum flats in Manchester in April 2021 following a failed EWS1 (external wall safety) assessment. These assessments were introduced by the government to improve fire safety of high-rise buildings including external cladding. As of the end of February there was no clarity as to potential cost and timing of any remedial works, or whether this may require funding from leaseholders, the clause remains in place. Consequently, the SIV states less certainty and a higher degree of caution should be attached to its valuation of these units, and that it may take longer than the usual 3-6 month marketing period should a decision be made to sell them individually. However, the original developer of the flats has recently signed the Government's Buildings Safety Repairs pledge and stated its intent to work with the site's Residents Management Company to agree a schedule of remediation works. All residents are aware of the situation and additional fire safety measures have been implemented. The 17 flats held by the fund, of which 12 are in a building below 18 metres, are part of a larger development of c. 600 apartments. Since a Material Valuation Uncertainty clause has been attached to these properties, the 30th June 2022 financial statements were qualified.

Important information

This financial promotion has been approved under Section 21 of the Financial Services and Markets Act 2000 by Thesis Asset Management Limited.

Residential property values are affected by factors such as interest rates, economic growth, fluctuations in property yields and tenant default.

Property investments are relatively illiquid compared to bonds and equities, and can take a significant amount of time to trade.
