

Class C Shares - Retail Gross (Unbundled) - 30 November 2023

TM home investor fund is the UK's first Financial Conduct Authority regulated residential Property Authorised Investment Fund (PAIF).

This factsheet is for information only. It is not designed to provide advice on the suitability of an investment for your personal financial situation. Investors should read the Key Investor Information Document or Prospectus which are available on www.homeinvestor.fund or by contacting info@hearthstone.co.uk.

Investment Objective Summary

The Fund invests in private rented sector housing across mainland UK regions and aims to capture UK house price growth and provide an element of income return. The property investment manager, Hearthstone Asset Management Limited, uses quantitative asset allocation and qualitative regional stock selection to build a portfolio of assets reflecting the distribution of UK mainland housing stock which are let under assured shorthold tenancies (AST's) and corporate lets. Investment returns comprise capital growth and rental income. The e.surv Acadata House Price Index is used for performance comparisons only. It is not a target benchmark and the fund is not constrained by it. This index has been chosen as a comparator benchmark as it is based upon actual sales completed and is mix-adjusted.

Please see the Key Investor Information Document or Prospectus for the full Investment Objective and Policy wording, and on the choice of performance comparator.

Performance of Class C Shares - Retail Gross (Unbundled) Accumulation Class, launched 07/01/2013. Prevailing single price*, net of charges, in GBP with income reinvested gross (no deduction of income tax). Performance of other classes may vary. Source of all data: Financial Express 30/11/2023 and e.surv 30/11/2023 unless stated otherwise.

*On 09-04-2015, the fund switched to a swinging single pricing basis with the prevailing single price used for performance calculation. Prior to that date, the fund was dual priced, with performance calculated on a bid-to-bid basis.

Important: You may get back less than the amount invested. Past performance is not necessarily a guide to future performance and future returns are not guaranteed. Tax treatment depends on the individual circumstances of each investor and may be subject to change in future.

Property Investment Manager's commentary

Following the communication on 30th October 2023, the Fund commenced termination with effect from 1st December. Whilst not shown in the performance charts in this factsheet to the end of November, the share price reduced by c. 9% on 4th December (5th for the Feeder Fund) as c. £5.7m of cash (c. 9% of the Fund) was set aside for the first capital distribution which was paid to investors on 12th December. Distribution rates can be found on www.homeinvestor.fund.

In the November valuation, the Standing Independent left values unchanged on the majority of the Fund's properties except for 13 in Preston and Edinburgh which were reduced by a total of £125,000 although this was again offset by rental income collected. Despite difficult market conditions, the Fund's property portfolio valuations are down by just 0.95% over the last 12 months, versus the e.surv Acadata index reporting a fall of 4.6% in house prices. Rent collection on occupied properties was 101% in November which followed October's 104% as arrears from September were recouped. Void loss will inevitably increase as properties are vacated pending disposal, and was at 9.4% of potential gross rent for November.

One property sale completed in November for a price of £350,000. A further 13 properties for a total of £3.4 million are currently progressing through conveyancing, and 8 being marketed for sale at a total of just under £2.5 million. A further 41 properties are in the process of being readied for marketing early in the New Year. As the Fund holds multiple properties on a number of sites, we aim to phase disposals so as to not dilute the value of those assets. We also continue to explore possibilities for bulk-sales of parts of the portfolio to investment buyers but, in the current market, these types of buyers are seeking significant discounts which we do not consider to be in the interests of the Fund's investors.

* The SIV attached a material valuation uncertainty clause to the Spectrum flats in Manchester in April 2021 following a failed EWS1 (external wall safety) assessment. These assessments were introduced by the government to improve fire safety of high-rise buildings including external cladding. As there is currently no clarity as to potential cost and timing of any remedial works, or whether this may require funding from leaseholders, the clause remains in place. Consequently, the SIV states less certainty and a higher degree of caution should be attached to its valuation of these units, and that it may take longer than the usual 3-6 month marketing period should a decision be made to sell them individually. However, the original developer of the flats has recently signed the Government's Buildings Safety Repairs pledge and stated its intent to work with the site's Residents Management Company to agree a schedule of remediation works. All residents are aware of the situation and additional fire safety measures have been implemented. The 17 flats held by the fund, of which 12 are in a building below 18 metres, are part of a larger development of c. 600 apartments. Since a Material Valuation Uncertainty clause has been attached to these properties, the 30th June 2023 financial statements were qualified.
