Investment Objective

The Fund invests in private rented sector housing across the mainland UK regions and aims to capture UK house price growth plus provide an element of income return. The property investment manager, Hearthstone Asset Management Limited, uses quantitative asset allocation methods and qualitative regional stock selection to build a portfolio of assets reflecting the distribution of UK mainland housing stock. These properties are let under assured shorthold tenancy agreements (AST's) and corporate lets. Investment returns comprise capital growth and rental income.

Property Investment Advisor's commentary

The portfolio continues to perform well. The independent monthly valuation shows increases in the fund's assets in Northfield, Birmingham, and also on some of the Wembley units. The rest of the portfolio remained stable during the month. We have seen no falls in values reported by the Independent Valuer. During the month, the sale of one property in Magor, South Wales, was completed. Overall, the fund's carefully constructed regional portfolio of modern houses continues to outperform the national averages.

LSL Acadata reported that the annual change in house prices remains steady at 1.8%. This is below inflation of 2.3% (CPI) which means that, in real terms, house prices have become more affordable. Transactions across England and Wales are estimated to be 79,900 by LSL Acadata - a small fall of around 0.1% compared to July.

The national picture on average house prices masks differences across the regions and unitary authority areas. Some notable examples of this are West and East Midlands showing year on year growth of 2.9% and 2.7% respectively, and the North East increasing by 2.6%. London, whilst starting the year as the lowest performing region, now tops the regional performance table at 3.6% annual increase in average house price.

Rental demand remains strong with over 99% of properties occupied at the end of August, including let and reserved properties. In Nottingham we are seeing rents 10% higher than the valuations when we agreed to buy the last 6 houses at The Limes. At Rowhedge Village, Colchester, 6 of the 8 new houses are already let, and one tenancy agreed to start in September.

The RICS Survey shows that the Tenant Demand indicator has risen to a positive balance of +22% which is its highest since October 2016. Supply of rented homes, however, is negative at -18% with a drop in instructions in virtually all parts of the country. This is put down to the changes in the tax treatment of income for individual investors. As a result, RICS project increases in rents of around 15% over five years. With a portfolio of well located modern houses and flats, we expect the Fund will benefit from this trend.
