Fund fact sheet date: 31 July 2021

TM home investor fund is the UK's first Financial Conduct Authority regulated residential Property Authorised Investment Fund (PAIF)

This factsheet is for information only. It is not designed to provide advice on the suitability of an investment for your personal financial situation. If you have any questions regarding the information included in this factsheet, you are recommended to speak to a financial adviser.

Investment Objective

The Fund invests in private rented sector housing across the mainland UK regions and aims to capture UK house price growth plus provide an element of income return. The property investment manager, Hearthstone Asset Management Limited, uses quantitative asset allocation methods and qualitative regional stock selection to build a portfolio of assets reflecting the distribution of UK mainland housing stock. Properties are let under assured shorthold tenancies (AST's) and corporate lets. Investment returns comprise capital growth and rental income. The e.surv House Price Index (previously known as LSL Acadata) is used for the purpose of performance comparisons.

Property Investment Manager's commentary

The Standing Independent Valuer (SIV), CBRE, increased valuations on 31 of the Fund's properties in July by a total of £201,000. This is the fourth consecutive month of valuation uplifts, and the sixth month this year. July's increases were applied across a number of locations including Nottingham, Haywards Heath, Bristol, Coventry, and Sheffield. As mentioned in previous months, the Fund's properties are not valued by reference to a house price index, the SIV instead uses transaction data of comparable local properties on which to base its valuations and continues to watch several pending transactions in order to review other properties in the portfolio.

Rent collection for the month was 99.5% of that demanded – a trend that has continued throughout the pandemic. Due to the high levels of demand for good quality rental property that currently exists, we had just four vacant properties at month end (2% of units).

The fund held £18.7m cash at the end of July and we have been carrying out due diligence on several investment opportunities with the aim of acquiring up to £8m of stock in the near term to lower liquidity to a target range of 10%-15%. In recent weeks, the team has reviewed over £25 million of property and physically inspected sites in the North West, Yorkshire and Humber, and East Midlands regions which together represent over £15m of potential stock. One deal has now been agreed for a portfolio of 7 new build 3-bedroom houses in Doncaster valued at approximately £1.5m, and another in the North West for 13 terraced and semi-detached houses with a valuation of c. £3m. Most of this stock is expected to complete before the end of September. The team is continuing due diligence on a number of further investment opportunities.

* The Standing Independent Valuer has attached a valuation uncertainty clause to the Spectrum flats pending a satisfactory EWS1 (external wall safety) assessment. The building's Management Committee has registered with the Building Safety Fund and is currently working to assess the remediation works required.
