This factsheet is for information only. It is not designed to provide advice on the suitability of an investment for your personal financial situation. If you have any questions regarding the information included in this factsheet, you are recommended to speak to a financial adviser.

Investment Objective

The Fund invests in private rented sector housing across the mainland UK regions and aims to capture UK house price growth plus provide an element of income return. The property investment manager, Hearthstone Asset Management Limited, uses quantitative asset allocation methods and qualitative regional stock selection to build a portfolio of assets reflecting the distribution of UK mainland housing stock. Properties are let under assured shorthold tenancies (AST's) and corporate lets. Investment returns comprise capital growth and rental income. The e.surv House Price Index (previously known as LSL Acadata) is used for the purpose of performance comparisons.

Property Investment Manager's commentary

The Fund's established property portfolio was valued upwards again in November by the Standing Independent Valuer, CBRE. This month's increase was £90,000 (0.17%) and is the 10th uplift this year. A further £4,233,000 of new properties were also added to the portfolio as the Fund completed on the purchase of 6 new-build homes in Doncaster and 13 near Preston. The Doncaster portfolio is comprised 5 x 3-bed and 1 x 2 bed houses in the Lakeside area of the town, and Preston comprises 4 x 4-bed and 9 x 3-bed houses in the village of Broughton. Both locations have proved to be extremely popular and 4 were occupied at month-end, 4 have confirmed move-ins before Christmas, and 9 are reserved for move-ins in the new year. The property team is currently reviewing a number of other potential acquisitions across several regions with a view to allocate a further c. £6.5 million over the coming months.

Rent collection in November was 99.7% of that invoiced. Whilst the month ended with 18 of the Fund's 219 properties vacant, 15 of these were the newly acquired properties which completed on 12th November and as mentioned above, have been letting very quickly. There continues to be a nationwide shortage of good quality housing available in the Private Rented Sector and those owned by the fund are in very high demand which we expect to result in moderate rental growth during 2022.

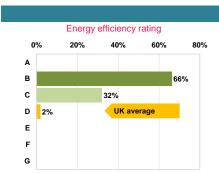

* The Standing Independent Valuer has attached a valuation uncertainty clause to the Spectrum flats pending a satisfactory EWS1 (external wall safety) assessment. The building's Management Committee has registered with the Building Safety Fund and is currently working to assess the remediation works required.
