Fund fact sheet date: 31 December 2021

TM home investor fund is the UK's first Financial Conduct Authority regulated residential Property Authorised Investment Fund (PAIF)

This factsheet is for information only. It is not designed to provide advice on the suitability of an investment for your personal financial situation. If you have any questions regarding the information included in this factsheet, you are recommended to speak to a financial adviser.

Investment Objective

The Fund invests in private rented sector housing across the mainland UK regions and aims to capture UK house price growth plus provide an element of income return. The property investment manager, Hearthstone Asset Management Limited, uses quantitative asset allocation methods and qualitative regional stock selection to build a portfolio of assets reflecting the distribution of UK mainland housing stock. Properties are let under assured shorthold tenancies (AST's) and corporate lets. Investment returns comprise capital growth and rental income. The e.surv House Price Index (previously known as LSL Acadata) is used for the purpose of performance comparisons.

Property Investment Manager's commentary

The Fund's established property portfolio was valued upwards again in December by the Standing Independent Valuer, CBRE. This month's increase of £120,000 (0.21%) was the 11th uplift in 2021. Slow recording of transactions on Land Registry means the e.surv Acadata House Price Index continues to be very volatile, and it is likely to be into Q2 2022 before a reliable measure of house price growth for 2021 emerges. We are reading the recent months' index data with a high degree of caution.

Having completed on the purchase of £4,233,000 of new properties in November, the final two acquisitions on the Willow Grange development in Doncaster completed in December at a value of £435,000. These two properties are both 3-bed semi-detached houses. Of the 8 new Doncaster properties and 13 new Preston properties acquired during November and December, 17 have already been let or reserved at average gross yield of 5.3%. The property team is currently reviewing a number of other potential acquisitions across several regions with a view to allocate a further c. £5 million over the coming months following continued positive net subscriptions to the Fund.

Rent collection in December was 98% of that invoiced, and collection for the year 99.1%. The month ended with 13 of the Fund's 221 properties vacant, but 2 of these were the Doncaster properties which completed on 17th December. The continuing nationwide shortage of good quality housing available in the Private Rented Sector means those owned by the fund are in very high demand, and vacant properties are letting well. We expect to see moderate rental growth during 2022.

* The Standing Independent Valuer has attached a valuation uncertainty clause to the Spectrum flats pending a satisfactory EWS1 (external wall safety) assessment. The building's Management Committee has registered with the Building Safety Fund and is currently working to assess the remediation works required.
